

Peoples Information Technology Program (PITP) Free IT Certification Courses

An Initiative of Information Science & Technology
Department, Government of Sindh

BATCH-02 COMPREHENSIVE REPORT

NOVEMBER 18, 2024 – JANUARY 10, 2025

Introduction of PITP Program

In response to the increasing demand for skilled professionals and the need to bridge the supply gap of industry-ready talent, the Government of Sindh, through its Information Science and Technology Department (IS&TD), has launched a series of targeted Human Capital Development Programs aimed at boosting employability and equipping youth with relevant technical and professional skills. One of the cornerstone initiatives under this framework is the **Peoples Information Technology Program**, which is specifically designed for youth, both from ICT and non-ICT backgrounds, who have completed their intermediate education and possess basic computer and/or programming knowledge.

This program aims to provide participants with hands-on training in following emerging technologies, such as:

- Digital Marketing
- Database Administration
- Data Science
- E-Commerce
- Mobile Application
- Python
- Java
- Graphic Designing
- Web Development

These emerging courses delivered through a collaboration with the ICT faculty and industry professionals, the program is designed to ensure that participants not only acquire in-demand technical skills but also develop the interpersonal and professional capabilities needed to thrive in a competitive work environment.

To maximize its reach and impact, the Information Science & Technology Department has partnered with three of Sindh's leading universities—

- **Sukkur IBA University**
- **NED University**
- **Mehran University of Engineering & Technology**

Ensuring that the training is delivered through reputable academic institutions with strong ties to the industry. The program is set to train approximately **13,000** young individuals, providing them with the skills and qualifications necessary to enhance the quality and quantity of human resources available to Pakistan's growing IT sector. By aligning academic training with industry needs, this initiative is expected to play a pivotal role in addressing the skill shortages in the IT industry, while also fostering long-term growth in Pakistan's technology-driven economy.

Objectives of the PITP Program

- To Train more than **13000** youth in Sindh Province and **4476** youth in Sukkur region.
- Provide accessible and free of cost IT education to empower individuals with the necessary skills to participate in the digital economy.
- Promote digital literacy among citizens to bridge the digital divide and ensure inclusivity in the digital age.
- Offering courses that are aligned with industry needs to prepare students for current and future job requirements in the IT sector.
- Offer courses that are aligned with industry needs to prepare students for current and future job requirements in the IT sector.
- Foster IT skills development to create employment opportunities locally and contribute to economic growth through the IT sector.
- Empower, especially women and youth with IT skills, thereby, promote gender equality and youth development.

Partnership with Regional Universities for Training of Youth

As part of the **Peoples Information Technology Program (PITP)**, Sukkur IBA University has formed strategic partnerships with three following leading universities in the regions of Sukkur, Larkana and Shaheed Benazirabad

- The Aror University, Sukkur
- SZABIST University Larkana
- QUEST Nawabshah
- PBM-WEC Kotdiji Center

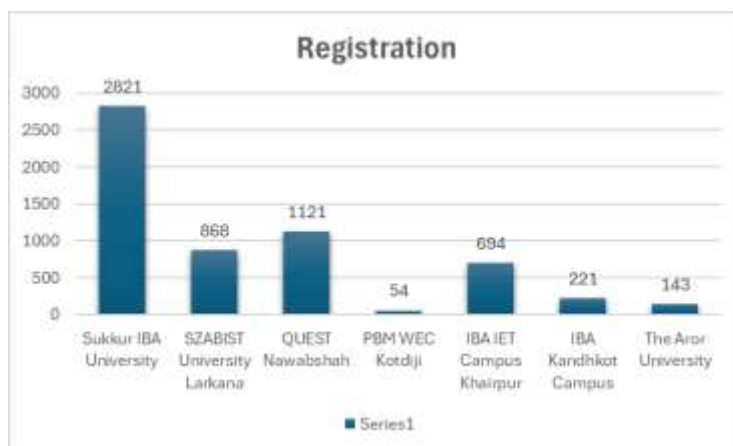

Apart from these regional universities, Sukkur IBA University executed PITP courses at its following sub campuses.

- IBA IET Campus Khairpur
- IBA Kandhkot Campus

This collaboration is designed to extend the reach of the PITP program to youth in these specific regions, ensuring that they receive world-class training in emerging IT fields without the need to travel far from their local communities. The aim of this partnership is to deliver specialized training in cutting-edge IT courses such as software development, data science, and digital marketing directly at the campuses of SZABIST and QUEST. Through this partnership, Sukkur IBA, in collaboration with SZABIST and QUEST, is working to ensure that the benefits of emerging technologies and IT education are more widely distributed, ultimately fostering economic development in these underserved regions.

Initial Registration Status of Batch-02

The registration process for the *Peoples Information Technology Program (PITP)* has seen strong participation across various centers. A total of **5922** youth applied for different courses. At Sukkur IBA University, a total of **2,821** students have registered, marking the highest registration. QUEST Nawabshah has attracted **1,121** registrations, while SZABIST Larkana has seen **868** students sign up. The Aror University, located in the region, has 143 students registration, while IBA Kandhkot, IBA Khairpur and WEC Kotdiji have seen **694**, **221** and **54** students enroll. These numbers reflect a broad interest in the program, indicating a growing demand for quality IT training across different regions of Sindh.

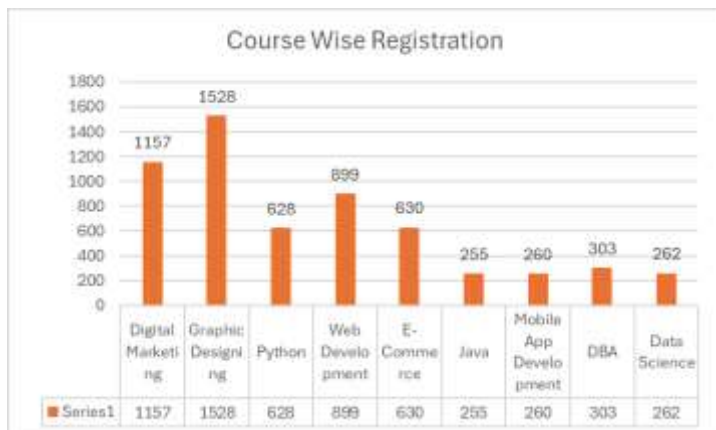

Based on the registration data, the following courses were offered to be executed at each center.
