EXECUTIVE SUMMARY

The People's Information Technology Programme (PITP), a collaborative effort between the Information Science & Technology Department (IS&TD) of the Government of Sindh and Mehran University of Engineering & Technology (MUET), continues its mission to empower Sindh's youth with essential IT skills.

Following the success of Batch-1, which trained 442 students across two centers and achieved an average monthly income of PKR 19,860 for its graduates, Batch-2 expanded significantly. Spanning from 18th November 2024 to 10th January 2025, Batch-2 introduced five centers, engaged 24 trainers, and trained 1,219 students. The program maintained its emphasis on practical, hands-on learning, with Web Developer emerging as the most popular course. MUET, Jamshoro, remained the most preferred center, and Hyderabad saw the highest participation among districts.

The gender distribution in Batch-2 included 65.86% male and 34.14% female participants, reflecting an encouraging trend of greater inclusion. Participants demonstrated the program's tangible impact, reporting average monthly incomes of PKR 13,216, with a median of PKR 8,000. Many trainees started earning during the course, with incomes ranging from PKR 8,000 to PKR 20,000 per month, and some even secured job offers or freelance opportunities, highlighting PITP's effectiveness in enhancing employability.

PITP's success in Batch-2 underscores its role in providing market-driven IT skills training while fostering economic empowerment. The program remains committed to uplifting underprivileged communities, driving digital literacy, and equipping Sindh's youth to thrive in a rapidly evolving digital economy.

THE LEADERSHIP

Mr. Syed Murad Ali Shah
Chief Minister Sindh

Mr. Syed Asif Hyder Shah
Chief Secretary Sindh

Mr. Noor Ahmed Samoo
Secretary IS&TD GoS

Prof. Dr. Tauha Hussain Ali
Vice Chancellor MUET

Prof. Dr. Aneel Kumar
Pro-vice Chancellor MUET

BACKGROUND

The People's Information Technology Programme (PITP) was launched by the Information Science & Technology Department (IS&TD) of the Government of Sindh to address the increasing demand for digital literacy and IT skills among the youth of Sindh, particularly in underprivileged and remote areas. The program seeks to bridge the digital divide by offering free, high-quality IT training and certification in in-demand fields, empowering young individuals to thrive in today's technology-driven economy.

PITP aligns with the Sindh Government's broader vision of fostering economic growth and social inclusion. It equips the youth with industry-relevant skills, enabling them to access better job opportunities and contribute to the socio-economic development of the region.

To execute this initiative effectively, the Government of Sindh partnered with three prestigious universities:

Mehran University of Engineering and Technology
Jamshoro, Sindh, Pakistan

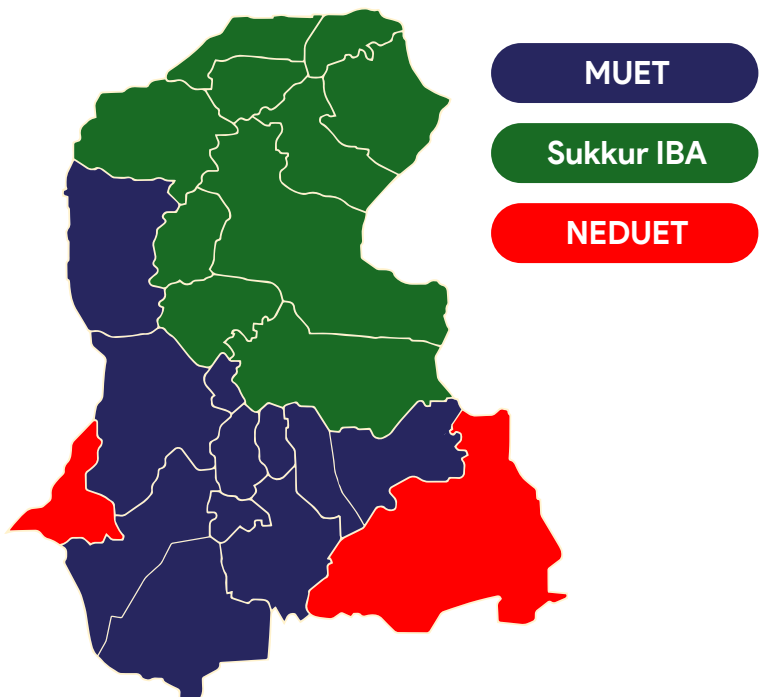

NED University of Engineering and Technology
Karachi, Sindh, Pakistan

Sukkur IBA University
Sukkur, Sindh, Pakistan

Each university was designated with specific divisions of Sindh to implement the program. MUET was entrusted with managing the Hyderabad and Mirpurkhas divisions (excluding Tharparkar), leveraging its infrastructure and expertise to ensure the delivery of high-quality training to aspiring learners.

This collaborative model not only enhances the program's reach but also ensures the quality of training through academic excellence. By empowering the youth with critical IT skills, PITP contributes significantly to reducing economic disparities, promoting digital literacy, and creating a more inclusive, tech-driven future for Sindh.

OBJECTIVES OF PITP

The People's Information Technology Programme (PITP) was established with a clear vision to empower the youth of Sindh by equipping them with essential digital skills. The primary objectives of PITP are to:

- Equip youth with marketable IT skills that enhance their employability and open doors to higher-paying job opportunities in the technology sector.
- Bridge the digital skills gap in Sindh by providing accessible, high-quality IT training to underprivileged and remote communities, ensuring that no one is left behind in the digital revolution.
- Promote social mobility and inclusion by enabling youth from diverse socio-economic backgrounds to participate in and benefit from the growing technology sector.
- Create a skilled digital workforce that aligns with the needs of modern industries, thereby stimulating economic growth and development within the region.

The programme's mission is to empower the youth of Sindh through digital literacy, enabling them to actively contribute to the economic development of their communities and the province as a whole. By fostering a culture of learning and innovation, PITP aims to transform the lives of young individuals, providing them with the tools and opportunities needed to thrive in a technology-driven world.

COLLABORATION BETWEEN MUET AND GOVERNMENT OF SINDH

The collaboration between Mehran University of Engineering & Technology and the Sindh Government, through the Information Science & Technology Department, represents a strategic partnership designed to leverage MUET's strengths in IT education and the Sindh Government's commitment to youth empowerment. This partnership is essential for the effective implementation and scaling of the People's Information Technology Programme.

Together, these entities ensure that PITP offers free, comprehensive IT training, which is tailored to the needs of both students and the broader industry. The collaboration also fosters the development of new educational programs, specialized tracks, and certifications that align with the evolving demands of the digital economy. By pooling their expertise and resources, MUET and the Sindh Government are working towards creating a digitally skilled workforce that can drive innovation and economic growth in Sindh.

This partnership not only enhances the effectiveness of PITP but also sets a precedent for future collaborations between academic institutions and government bodies, aimed at empowering the youth and bridging the digital divide in the region.

BATCH-2 HIGHLIGHTS

PROGRAM OVERVIEW

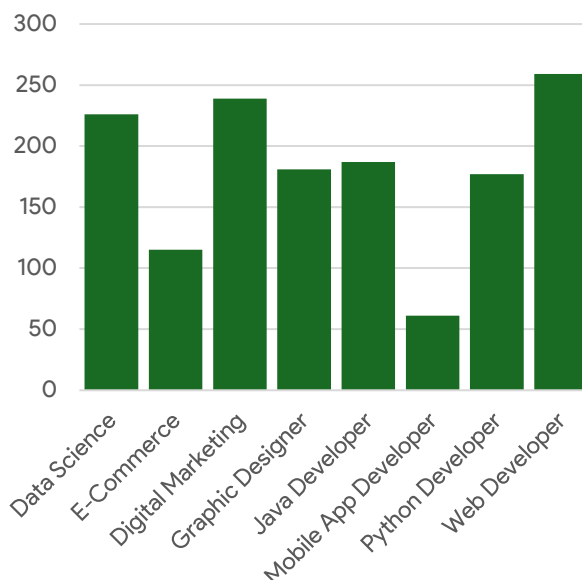

Detail	Description	Progress
Start of classes	18 th November 2024	-
End of classes	10 th January 2025	-
Total centers	5	
Total trainers	24	
Total applicants	4563

BATCH-2 SCHEDULE AND CLASSES

Under Batch-2 of PITP various courses held at different locations, including, Mehran University of Engineering and Technology in Jamshoro, Gexton Education Centers in Hyderabad, Win Academy in Dadu, University of Mirpurkhas in Mirpurkhas, and Thar Institute of Nursing & Allied Health Sciences in Umerkot. The program used 5 labs at MUET, 2 campuses of Gexton Education, and centers in Dadu, Mirpurkhas, and Umerkot. In total, 24 courses were offered to 1,445 participants.

Program Overview

- **Total Enrollments: 1445**
- **Locations:**
 - o MUET, Jamshoro: 11 courses across 5 laboratories
 - o Gexton Education, Hyderabad: 8 courses across 2 campuses
 - o Win Academy Dadu: 3 courses at 1 center
 - o University of Mirpurkhas: 2 courses at 1 center
 - o Thar Institute of Nursing: 1 course at 1 center

BATCH-2 SUCCESS STORIES

Launched with the vision of empowering the underserved and marginalized communities, PITP has enabled individuals to secure sustainable livelihoods and enhance their economic prospects. The impact of this initiative is evident from the success stories emerging from its second batch, showcasing remarkable achievements in terms of skill development, income generation, and personal growth.

Key Impact Highlights:

- A total of 1,219 trainees from various districts across Sindh, including Hyderabad, Jamshoro, Dadu, Umerkot, Matiari, and others, have successfully completed PITP's specialized courses.
- 35.9% of the graduates have begun earning, with 28.3% reporting they have secured freelance projects, full-time employment, or launched their own digital ventures within three months of completing the program (survey conducted).
- Monthly earnings of PITP graduates vary from PKR 5,000 to PKR 50,000, with an impressive average income of PKR 20,571 and a median income of PKR 5,000.
- Female participation has been a key focus, with 33.9% of the total graduates being women.

Income Distribution Analysis

Here's a breakdown of the income levels achieved by the graduates:

- Top Earners: Trainees earning between 30,000 to 50,000 PKR per month.
- Mid-Level Earners: Trainees earning between 10,000 to 30,000 PKR per month.
- Entry-Level Earners: Trainees earning below 10,000 PKR per month.

PITP

PEOPLE'S INFORMATION TECHNOLOGY PROGRAMME
MEHRAN UNIVERSITY OF ENGINEERING & TECHNOLOGY
JAMSHORO, SINDH, PAKISTAN

BATCH 2 TESTIMONIALS

It was really good project thanks to PITP for this course before this I was not even knowing the meaning of SEO now alhumdullilah I'm expert and doing job in E-Creation Multi Media

BABY MUZAMIL
Certified Digital Marketing Expert

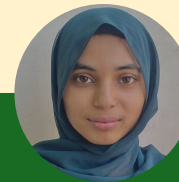

I would request to Sindh Government to continue the program because it is really helping the youth to work in the field of technology It is really helping the youth to choose their future now especially when they had just completed their intermediate.

MOOSA
Certified Data Scientist

This PITP program is very amazing for those students which are financially not well to afford their university or higher studies fee.

GULNAZ SAHARAN
Certified Graphic Designer

We had a great experience with PITP. A great environment and the trainers were also great. We had a great opportunity to learn a new skills now i am earning money by working from home. Thank you very much PITP & MUET.

ALEEZA
Certified Digital Marketing Expert

I am incredibly grateful to PITP for providing such an amazing opportunity to learn and grow in the field of web development. Programs like these are not just educational but transformative, offering a platform to explore new skills and build a career in technology.

TUNJINA ALI
Certified Web Developer Expert

PITP is the one of the best initiative from CM of sindh syed Murad Ali Shah we are very thankful our CM sahab which give us or nation a golden opportunity to step forward in online fields freelancing and earning best amount of money.

AHMED ALI
